Holly Mueller, Program Director
Arizona Department of Education, School Health & Nutrition Programs

Date: March 13, 2006

RE: NSLP Professional Development Survey Results

The Arizona Department of Education is pleased to present the 2006-2009 School Health and Nutrition Professional Development Plan & Survey Results. The Professional Development Survey was administered by the School Health and Nutrition Services Unit at the Arizona Department of Education in order to determine the specific needs of Food Service Professionals in our state. The data was examined and a three year Professional Development plan was created to address the requests of Food Service Professionals in Arizona.

The results of the Professional Development Survey have driven the creation of a Professional Development Plan tailored specifically to Arizona Food Service Professionals. A three year plan of continuing professional development opportunities has been developed and classes will begin in August 2006.

Please note that all registration for Professional Development classes must be completed on line at www.ade.az.gov/onlineregistration.

If you have any questions or concerns regarding this memo, please contact your assigned School Health & Nutrition Program Specialist at 602-542-8700.
